

## PurGuard® EV-100 Goggles

### Description

Sterile disposable goggles -The PurGuard® EV-100 is a disposable goggle for use in cleanrooms and sterile areas. The ultra-soft and pleasant frame material and anti-fog coating offer maximum wearer comfort at all times, also for wearers of glasses. The special ventilation design (indirect) effectively prevents fogging.

The tested and certified PurGuard® series goggles were developed especially for use in cleanrooms and offer perfect protection both of product and wearer.
