

## PurGuard® SV-900-AF (Antifog) Panorama Goggles

### Description

Autoclavable goggles - The PurGuard® SV-900-AF Panorama is a reusable, autoclavable goggle used in cleanrooms and sterile areas. The ventilation design along with the special antifog coating effectively prevent fogging of the lens. This model is characterised by panoramic lenses allowing a wide all-round vision.

The certified PurGuard® series goggles were developed especially for use in cleanrooms and offer perfect protection both of product and wearer.

### Features

- ❑ Soft, very comfortable frame material.
- ❑ Special autoclavable antifog coating.
- ❑ Special ventilation design.
- ❑ Adjustable silicon headband, latex-free.
- ❑ CE and ANSI certified.
